

VOICES  
Joe Thomas  
March 20, 2017

Hi there! My name is Joe Thomas and I have finally come back to KURY Radio of Brookings, Oregon!

Yes, the rumors are true. I am the one who came up with the idea last Spring to have Bernie Sanders debate Donald Trump during the primaries. I come up with ideas like that all the time for free, because I am a good American citizen who cares about this country.

I don't get any money from Donald Trump or Alex Jones, but maybe I should. A lot of these freaks you see protesting against Trump are getting paid to do so by that foreign billionaire creep, George Soros. What a big surprise.

Speaking of creepy and divisive, I notice that the local Democrats refused to take down that stupid Hillary sign across the street from Dairy Queen for at least two months after election day. The only reason they even took it down is because I called the local police to complain about that stupid sign. Did I do that because I love the Republican Party? Hell no! I have only voted for six or seven Republicans in my voting career. I hate the GOP, just not nearly as much as I hate the anti-American Democratic Party that has been taken over by the Chairman Mao crybaby brigade.

Several idiotic partisan Democrats and media types made a big deal about the war criminal George W. Bush, speaking out against President Trump recently. The Bush family are big buddies with the Clintons and the Bush crime family have always been un-American scum. After all, Prescott Bush supported Adolf Hitler and the Nazi regime before World War Two started.

Take back Obama, take back the Clintons, take back the Bush crime family and give them all some place to go. Donald Trump is my President and I don't give a rip what the political and media elite say about it.
